THECNICAL DETAILS

ARABESCATO OROBICO MARBLE

Litho-type sedimentary Limestone, very fine grained, with centimetrical veins of different hues, such as GREY, GREY PINK, PINK, RED.

Name of material	Arabescato Orobico Marble	
Country of Origin	ITALY	
Extraction Place	Camerata Cornello (Bergamo) Italy	
Petrographic definition	Laminated Intramicrite	NF EN 12670
Apparent Density	b = 2704 Kg/m ³	NF EN 1936
Compressive strength	Rm = 125 MPa s = 16 MPa v = 0.1	NF EN 1926
Abrasion resistance	17,7 mm	NF EN 14157
Water absorption	C1 = 0.083 g/m ² .s0.5	NF EN 13755
Bending strength	Rtf = 11.4 Mpa s = 4.5 Mpa	NF EN 12372

Factory

Office

OUR COMPANY

"Cave Gamba" founded in 1965, works, on its own property, three quarries of "Arabescato Orobico Marble" in the municipal territory of Camerata Cornello.

The company became, during the years, a point of reference in the extractive activity of "Arabescato Orobico Marble", an example of continuity with the tradition.

All staff Cave Gamba is constantly working with passion and with extensive experience, at service of customers, with respect for natural surrounding.

Our production, "Blocks - Slabs - Cut to Size", allows a constant supply of material in colour and texture for exclusive and unique projects.

Applications

The Arabescato Orobico's basic characteristics are:

- Optimum compressive and flexural strength
- Optimum durability
- A low water absorption coefficient

Arabescato Orobico is ideally suited for use as high-quality floors and claddings, primarily in large areas, which allow the full splendour of the geometric designs achieved thanks to accurate processing and the great care taken in the placement of the stones.

The characteristic unique colourings are brought out both by the polishing and the splitting process, which highlight its warm tones.

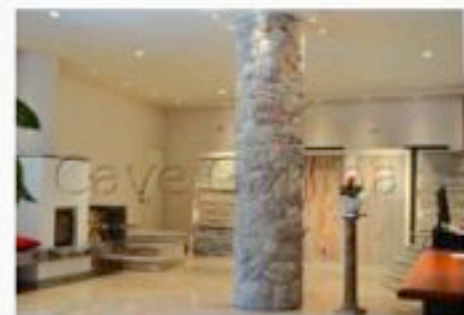

Internal architecture

Commonly used for both private and public buildings, such as offices, restaurants, hotels, banks, exhibition complexes and architectural use in general.

External and Internal architecture

The splitting process highlighting the characteristic colouring of the stone is perfect for exclusive projects.

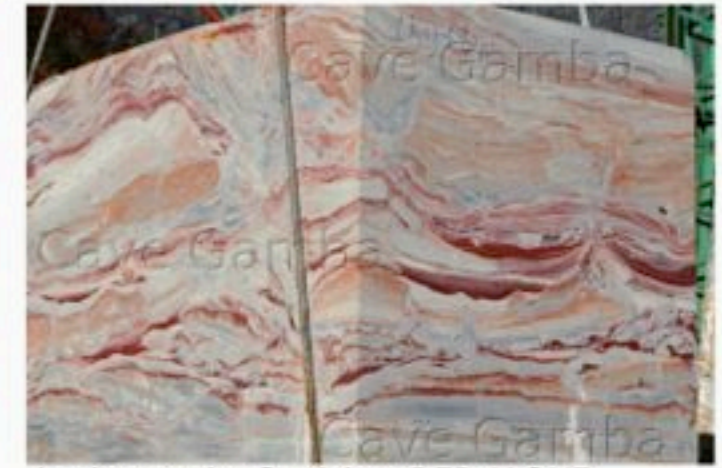

Furnishing

The Arabescato Orobico's wide range of colours guarantees pieces of extraordinary quality and beauty.
